Connecticut's Workforce Investment Systems (CTWorks)

The State of Connecticut Department of Labor (CTWorks) collaborates with the five (5) regional Workforce Investment Boards that assess employment training needs and priorities, and coordinates programs that address those needs. The grants provide funds to promote world-class innovation, productivity, and competitiveness through industry cluster economic development with qualified consultant groups, such as **Leanovations**. The ultimate goal is to increase the prosperity and standard of living of Connecticut's citizens, and finds ways to support it through various training, including lean manufacturing. Awards may range up to \$40,000. The grant requires that each employer contribute a dollar for dollar match and funding normally equals 50% of total training costs. Please contact **Leanovations** to find out if there is a DOL/IWT funding available in your region.

NETAAC Funding

The New England Trade Adjustment Assistance Center Inc. (NETAAC, is a government funded non-profit corporation. NETAAC offers cost shared assistance for import-injured manufacturers through a grant from the U.S. Department of Commerce. Companies that have experienced recent declines in sales and employment, due at least in part to increasing imports of competitive products, are eligible for participation in the program, in which the federal government pays 50% of the cost of consulting services such as **Leanovations** designed to help the client firm improve its competitive position. (The federal government pays 75% if the firm requests \$30,000 or less of assistance.)
